

Ali Tehrani Sketch 3

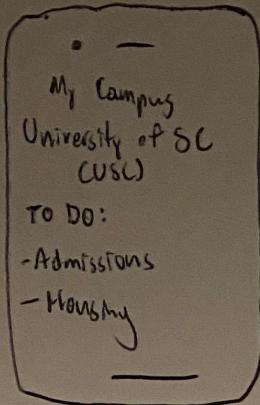

- For a premium account, users can sync their account with Blackboard and submit assignments directly through the app.

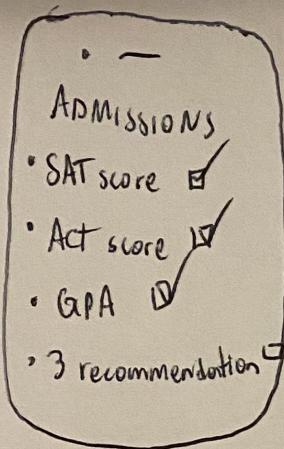

Users can use DST to check their grades and assign upcoming due dates to homework.

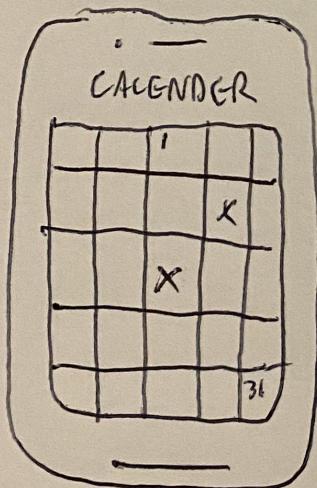

Ali Tehrani Sketch II

- Upon linking one's school w/ their DS, the campus checklists are copied, allowing users to upload files via DS and sync automatically to the school webpage.

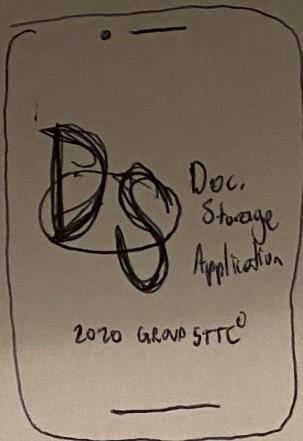

- Requirements already automatically check off if uploaded and processed, syncing to the school's various portals automatically.

- Calendar function, allowing users to declare EVENTS, due dates, and REMINDERS that upon enabling notifications on app, will notify the user.

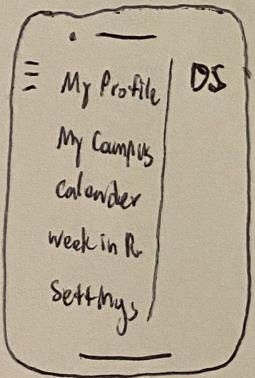

Ali Tehrani Sketch

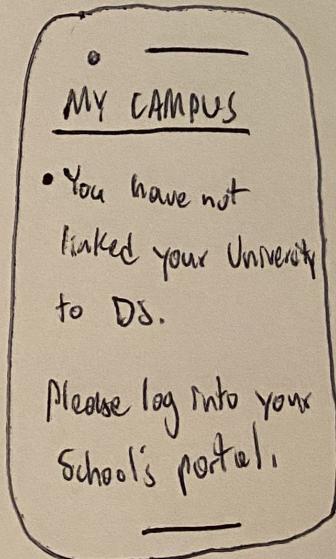

- Loading screen upon opening app, complete with 'DS' logo.

- Home screen is personalized tabloid, greeting user & presenting a 'week in review' that shows upcoming events

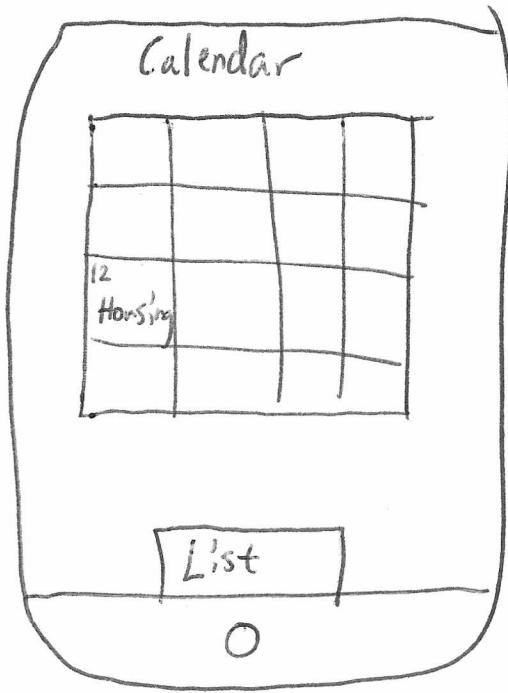

- Menu interface aids users in navigating the app and personalizing it to their liking.

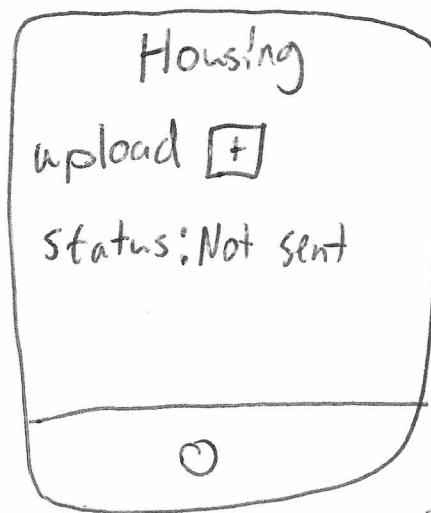

- Users manually connect their School, DS being compatible with 1,400+ accredited Universities in the United States.

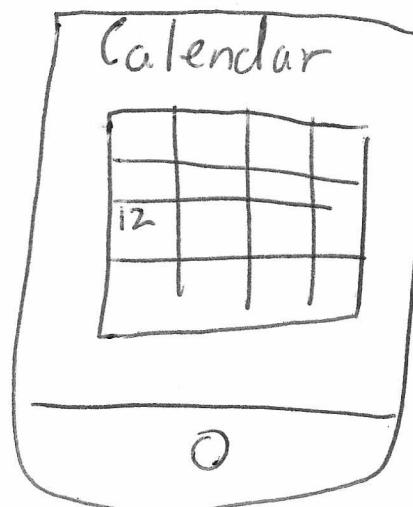

Mark Soehner Sketch 1

The home page is a calendar with all the dead lines on it

When the user hits one of the deadline links, the app takes them to a place where they can upload the essential documents and check the document status.

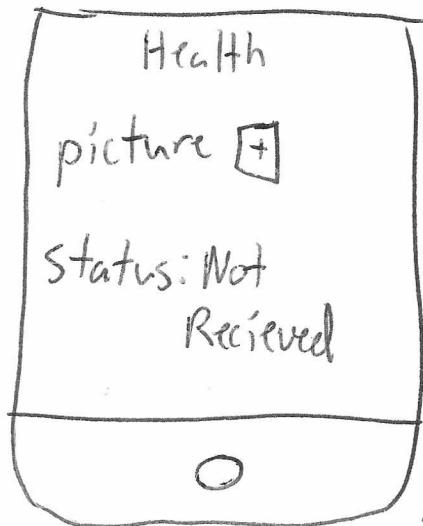

When a document is received, the deadline is removed from the calendar.

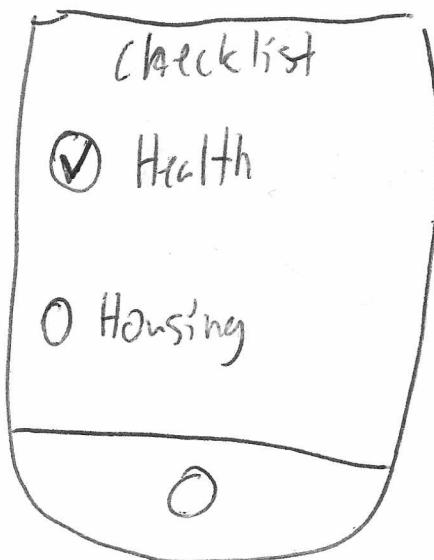

Mark Soehner Sketch 2

The homepage is a checklist where the user can see all of their deadlines.

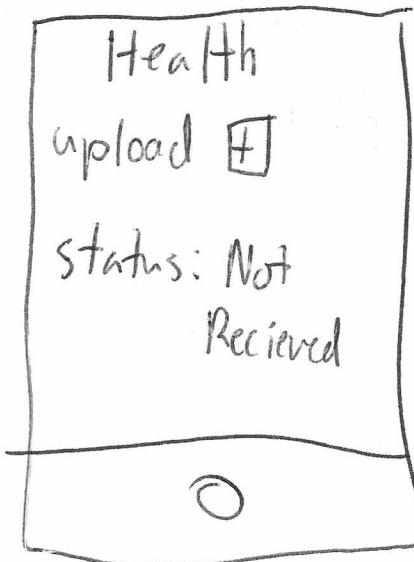

When the user clicks on an item on the checklist, the app takes them to a screen where the user can take a photo of a document and have it automatically convert itself into a format it can use. The user can also check the status of the document.

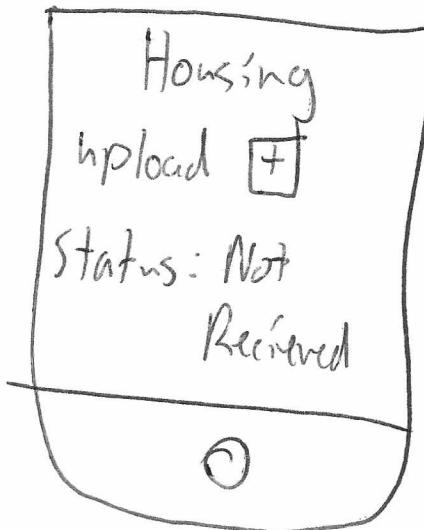

When the document is received, the item is checked off of the home page.

Mark Soehner Sketch 3

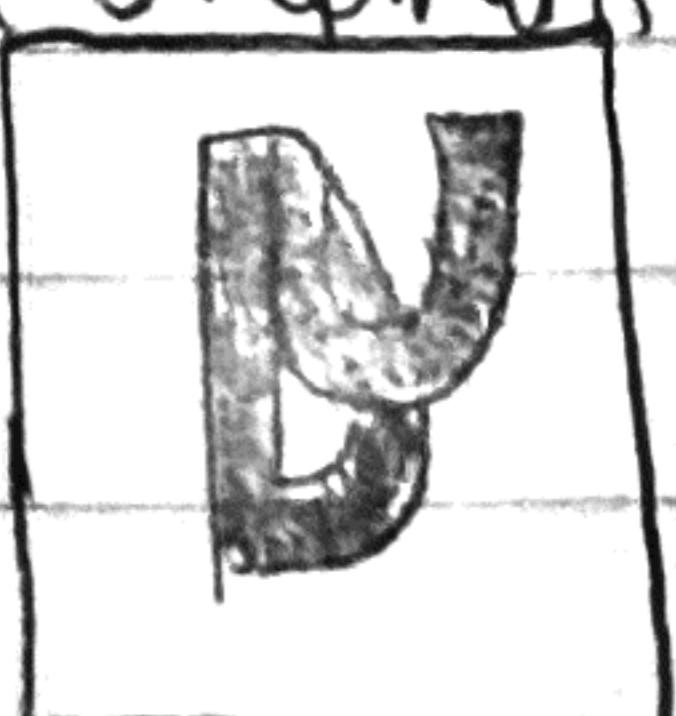

The homepage is the deadline that happens the earliest. From this screen the user can upload the essential document and check its status.

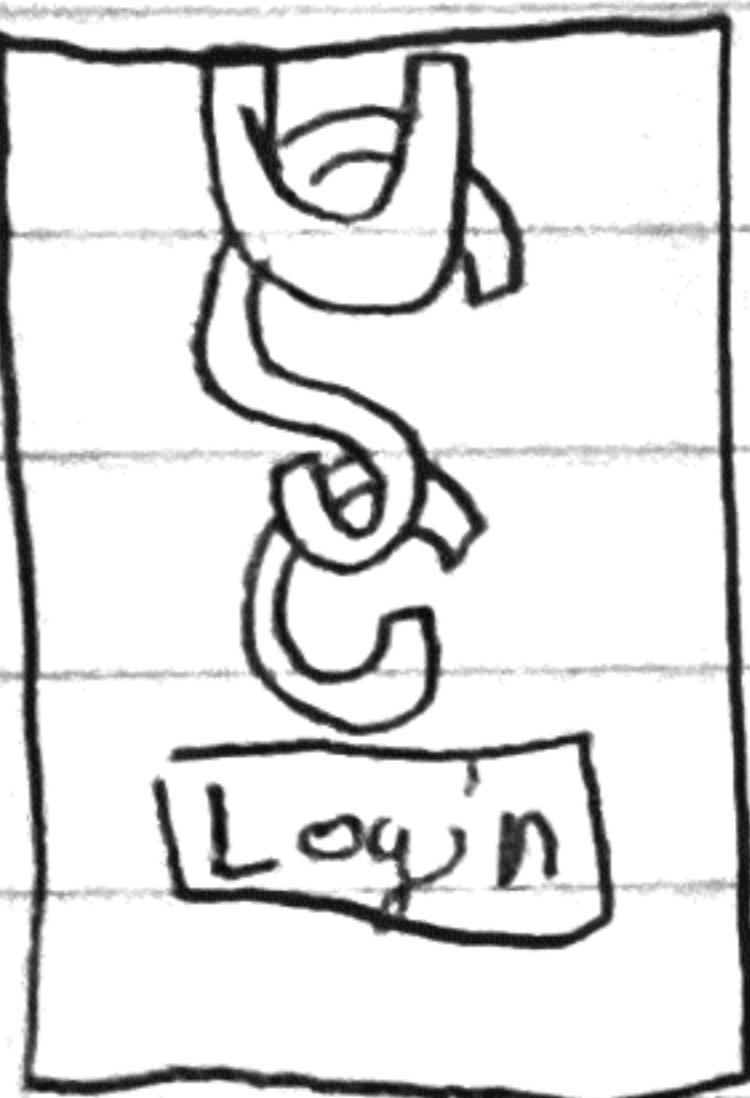

When the user completes a task, that task is removed and the task with the closest deadline takes its place on the home page.
